

MG030

SILENT AUTOMATIC COFFEE GRINDER

Astra's MG030 MEGA silent automatic espresso grinder is the perfect blend of form and function for any high-volume cafe, coffee shop, or restaurant. The MG030 is designed to meet the need of high-quality grinding with a quieter operation. The silent automatic grinder starts grinding every six shots and stops when the doser is full. It has an ON-OFF switch and micro-switch for automatic start/stop. The silenced grinding chamber ensures lower noise levels while still providing the gentle sound of a fresh grinding experience.
