

## POUROVER MACHINES

Astra Pourover Machines bring the café experience right to your home, office or operations making less than ~200 cups/hr. Thermo-circulation and infusion brewing system provides absolute temperature consistency and quality coffee. Astra espresso machines provide unmatched reliability, quality and simplicity.

**Automatic,  
One Group Head**

**Semi – Automatic,  
One Group Head**

**Automatic, One  
Group Head Double Boiler**

**Semi – Automatic; One Group  
Head Double Boiler**

**Semi – Automatic,  
One Group Head**

### Key Features

### Benefits

<b>Portable</b>	Pourover filling method enables the machine to be portable and free from plumbing
<b>Vacuum Valve</b>	Prevents milk from entering the boiler
<b>Automatic Water Fill</b>	Motor will shut off if no water has reached the pump

## POUROVER MACHINES

**GSP023**

- Automatic or manual dispensing available
- Manual steam and hot water controls
- Hot water spout

Part Number	Power			Water	Boiler Capacity (L)	Dimensions In.		
	W	V	amps (rec. circuit)			W	D	H
GAP022	2000	110	20	Tank	4.2	13	20	17
GSP023	2000	110	20	Tank	4.2	13	20	17

**GAP022**

**DBS**

- Automatic or manual dispensing available
- Automatic high-temperature switch with reset
- 2.6 L steam boiler with electronic relay control
- 1 L boiler with PID control brew mechanism

Part Number	Power			Water	Boiler Capacity (L)	Dimensions In.		
	W	V	amps (rec. circuit)			W	D	H
DBS AUTO	1300	120	20	Tank	2.6 Steam 1.0 espresso	13	20	16
DBS	1300	120	20	Tank	2.6 Steam 1.0 espresso	13	20	16

**DBS AUTO**

**PRO**

- Automatic steam wand available
- Continuous team and hot water/brewing
- Manual water dispensing toggle switch
- Manual steam valve

Part Number	Power			Water	Boiler Capacity (L)	Dimensions In.
